After an exciting chase Saunders was caught and taken to the station.

Two improvised chisels and a razor were taken from him. A piece of the iron fence around the parking on the side of Mr. Porton's store was found in his clothing. The police are still investigating the case. He will probably be taken to court tomorrow.

HEART DISEASE.

SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLE.

Heart trouble, at least among the Americans, is certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion, and which contain valuable, harmless digestive elements in a pleasant, convenient form.

The close relation between heart trouble and poor digestion is becoming both organs are connected by the same great nerve, the sympathetic and the pneumogastric.

In another way also the heart is affected by the form of poor digestion, which causes gas and fermentation in the stomach, and this in turn causes a feeling of oppression and heaviness in the chest, caused by pressure of the distended stomach on the heart and lungs, interfering with their action; which arises palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which will cure any form of stomach trouble except cancer of the stomach.
